FOR IMMEDIATE RELEASE – October 2016

Public Invited to Tour the Spring Creek Wastewater Treatment Plant

The Sangamon County Water Reclamation District is holding an open house at the treatment facility on October 15.

The Sangamon County Water Reclamation District (SCWRD) will be holding an open house at the Spring Creek Wastewater Treatment Plant on Saturday, October 15, from 10:00 A.M. until 2:00 P.M. Visitors will be given guided tours of the facility and will learn how the wastewater treatment process works. The treatment plant is located at 3000 North Eighth Street, just north of the Illinois State Fairgrounds, along Veterans Parkway. The open house is free and open to the public.

Wastewater treatment is something that most people don't think about a lot, but it is critical to the well-being of the community. Visitors will be shown a short educational video that explains the treatment process and provides a brief history of SCWRD. Afterwards, guests will board a shuttle for a 20 minute tour of the 25-acre facility. SCWRD staff will be on hand to provide information and answer questions. Hot dogs, chips and refreshments will be provided at the end of the tour.

SCWRD would like to encourage everyone to come out and see this state-of-the-art treatment facility. It will be an educational and enjoyable experience for adults and children alike.

For more information about the open house or the Spring Creek Wastewater Treatment Plant, please contact Jennifer Langheim with Crawford, Murphy & Tilly, Inc at 217-572-1102 or by e-mail jangheim@cmtengr.com. Gregg Humphrey, the Director of SCWRD is available for interviews through Ms. Langheim.
